Date: August 21, 2024

Patient Information:

Name: Random Name
Date of Birth: January 15, 1985
Patient ID: 123456

Diagnosis:

Upon examination, the patient presented with moderate periodontal disease, characterized by gum inflammation and mild bone loss. X-rays revealed no significant cavities or other abnormalities.

Treatment Plan:

- Scaling and Root Planing:** To address the periodontal disease, a deep cleaning procedure is recommended.
- Oral Hygiene Instruction:** The patient will receive personalized instructions on improving oral hygiene practices.
- Follow-Up Appointments:** Regular check-ups every 3 months to monitor progress and ensure proper healing.

Additional Notes:

The patient has been advised to use an antibacterial mouthwash and schedule follow-up appointments to track the condition.
